

# EBB & FLOW

Danish Decorative Lighting  
2018

“

With its wide shape and shallow height, Horizon invites you to look far and gaze into the un-know. All our lights are mouth-blown and finished by hand in Denmark, and Horizon is no exception. The model imposes on its environment a vibrant splash of colour that will liven up the room. Available in 4 sizes and 9 colours from cool clear, grey and blues to warm golden browns and greens. Horizon is fitted with brass or silver metal fittings and gold or silver fabric wire.

HORIZON

“

Smykke is the word for jewellery in Danish, and the fascination with precious sparkly earrings is the inspiration behind this new addition. Set with two individual pieces of mouth-blown glass or crystal, the lamp is framed by shiny gold or silver metal balls in a way that makes it a piece to marvel at. In Smykke we also combine hand-cut crystal with mouth-blown glass for a look that is distinctly fashion for lamps. The Smykke collection is available in an all-crystal version with gold or silver fitting and wire, as well as obsidian, golden smoke and smokey grey glass.

SMYKKE

LUTE

LUTE

“

The Lute pendant lamp is a modern classic. Tall and elegant and with a perfect balance between top and bottom, it sets out with a rounded base in one colour that leads up to a slim funnel-shaped top in metallic coloured glass, further extending into a metal pipe. The inspiration behind the Lute was the musical instrument, and perfume. Think elegant vintage labels with gold lettering and delicate translucent-coloured bottles of scent.

LUTE

“

Futura, the slim dreamlike pendant, shapes the glass along three curves with alternating colours, metal in the middle section, and tonal colouring above and below. As the shape took shape, as it were...it reminded me more and more of a 'modern woman', whatever that is, big brainy head, beautiful neck and a rounded bottom!

ROWAN

“

The Rowans have a very special place in my heart, they are where it all started, their simple yet sophisticated shape is brought to the fore by a multitude of sizes and colours.

ROWAN

ROWAN

CRYSTAL

“

Lead crystal is such a noble artform, when it is melted in the furnace, a quarter 'old' scrap crystal is used...no-one could tell me why, but this is how the clarity of new crystal is achieved. And boy is it clear - it has this impossible sparkle and clarity to it, and of course the weight gives it away.

FABRIC SHADES AND TABLE LAMPS

FABRIC SHADES AND TABLE LAMPS

FABRIC SHADES AND TABLE LAMPS

“

This year marks a departure from our staple choice of materials glass and metal into fabrics. The fusion of the two has created a beautiful new range of table lamps and pendants, and opened up a lush and luxurious world of colour and texture that has frankly blown our minds. Combine and match as you wish, linens and velvets line up side by side in a fabulous palette of colours and patterns from the palest of whimsical silvery whites to the most dramatic brocades and textured velvets in deep dark opulent shades. Our three models, Lute, Pillar and Futura make up the choice of table lamp bases, and our new collection of fabric shades is available in two different shapes that can be used with the table lamp bases or as pendants in their own right.

## PRODUCTS and SPECIFICATIONS

### SYMBOLS

#### LIGHT SOURCES

#### CLEANING AND CARE

#### TECHNICAL INFORMATION

### SYMBOLS

### LIGHT SOURCES

### CLEANING AND CARE

The lamp shade is hand-crafted using mouth-blown glass. Air bubbles and other imperfections may occur. These are not considered defects, they are unique characteristics of the glass.

The glass should be handled and cleaned using only a mild non-abrasive soap, and must be dried using a clean and soft cloth.

### TECHNICAL INFORMATION

This lamp must only be fitted by a qualified electrician.

The white connection box located inside the ceiling rose on models Rowan and Pillar must be opened in order to fit and connect the lamp.

Ceiling hook or similar fitting attachment, NOT included.
